

IMS POLICY

In the current market environment, Lamoia-Algeria has established an important priority: the need to distinguish itself from its competitors by anticipating the needs and expectations of its customers and other stakeholders by mobilizing all its resources.

Lamoia Algeria-IMS policy is based around the following strategic axes:

- Customer satisfaction by producing fast and reliable solutions to customer needs to ensure satisfaction at the highest level,
- To produce quality and reliable products and services in accordance with the law,
- Aiming for continuous development and improvement,
- Aiming at customer focus in product and service production,
- To adopt team spirit as the main principle in our work,
- To comply with the laws and regulations regarding Environmental and Occupational Health and Safety,
- By attaching importance to the recycling of waste, we ensuring the separation and evaluation of energy and natural resources
- To measure environmental savings in consumption,
- We make our Quality, Environment and Occupational Health and Safety Policy available to our business partners to keep,
- To work with minimum accidents and prevent injuries and health deterioration,
- Working in accordance with the requirements of ISO 9001-2015 Quality Management System, ISO 14001-2015 Environmental Management System and ISO 45001-2018 Occupational Health and Safety Management System,

We are declare and commitment.
